

PENNSYLVANIA DEPARTMENT OF AGING

2017 ALZHEIMER'S DISEASE & RELATED DISORDERS REGIONAL FORUM

JOIN US

The challenges for individuals living with Alzheimer's Disease and Related Disorders (ARD), and those who selflessly care for them, are often staggering. Pennsylvania's State Plan for ARD calls for a renewed approach in the process of responding effectively to Pennsylvanians living with ARD. In order to continue to define a course of action and set Pennsylvania apart in increasing awareness, improving care delivery, building a workforce, and maximizing development opportunities in pursuit of a cure, we need to hear from you and all stakeholders. During the next few weeks, the department will be holding seven regional forums throughout the commonwealth to discuss ARD. Each forum will provide important opportunities to:

- Promote energetic discussions about the many different experiences and responses to dementia in your community
- Help support the development of a community action plan
- Ensure that we continue to work together to achieve improved outcomes for those with ARD
- Update and move the State ARD Plan forward
