everything being equal **The power of we (POW)**

A FREE ZOOM WEBINAR FOR LINK TO AGING AND DISABILITY PARTNERS

a journey of discovery about diversity and equity.

everything being equal: the power of we (pow)

With so much uncertainty and change at our doorsteps, we need as many tools and resources as possible to remain relevant and support each other. Through her own experiences growing up as a refugee in Lancaster, Amita shares how she leaned into her cultural roots en route to learning that we all have a critical role to play to create a climate of belonging for our peers, employees and customers.

This interactive session will shine a light on the acute need for empathy in work and in life and highlight why seeing our colleagues and customers as people is more critical than ever.

session objectives

Participants will walk away from this virtual event understanding that when we embrace our “misfit”

qualities and recognize the power of diversity, we increase our emotional intelligence.

This enables us to be effective leaders personally and professionally. What do you want your legacy to be as an inclusive human?

Together, we will:

- Recognize and embrace the power of our unique experiences and differences
- Build an equitable playing field
- Help individuals lean into their vulnerabilities
- Unlock leadership qualities and behaviors to encourage people to bring their whole selves to work
- Dig deeper and step into ourselves, including facing aspects we typically try to hide

You are invited to a Zoom meeting. You must register in advance for this meeting:
