## Virtual S.A.V.E. Training on Suicide Prevention

**Suicide prevention is VA's top clinical priority.** Every death by suicide is a tragedy, and we will not relent in our efforts to connect Veterans who are experiencing an emotional or mental health crisis with lifesaving support. By involving Veterans' family members, peers, and communities, we can work together to reach Veterans before a crisis occurs. VA knows that a caregiver to a Veteran is a keen observer of the Veteran's physical and mental health, and often a trusted confidant. That's why we want caregivers to have key information about suicide prevention, the warning signs for suicide risk, and where to get help when it is needed.

**S.A.V.E. assists caregivers to act with care and compassion if they encounter a suicidal Veteran.**

Signs of suicidal thinking.

Ask questions.

Validate the person's experience.

Encourage treatment and Expedite getting help.

**Date:**

January 24, 2023
